ABOUT ME

I am an experienced digital designer with a specialization in poster design using Illustrator and Photoshop. Additionally, I have expertise in web design utilizing Adobe XD, pure CSS and JS, as well as Angular and Bootstrap. Furthermore, I am skilled in 3D design using Blender. Alongside my technical abilities, I take pride in my role as a team leader, constantly striving to foster growth and collaboration. I have a deep passion for learning and actively engage in various computer science and marketing events to enhance my knowledge and skills.

EDUCATION

ISTIC - Borj Cedria

Computer Science student in Software Engineering and Information Systems branch.

EXPERIENCE

Digital Marketing Manager

2023

IGC - ISTIC GOOGLE CLUB

I have had the opportunity to lead various events and projects, where I have provided guidance and support to aspiring club members. I have been involved in mentoring their progress, conducting workshops, and assisting them with their individual tasks.

Social Media Manager

2022/2023

ENACTUS - MAKERLABS - FOCUS - UNIVERSE - MULTIVERSE

I have been entrusted with the responsibility of designing and fixing posters and badges/certificates for specific events, as well as creating video trailers and montages for separate occasions. In addition, I have taken the lead in coordinating teams to ensure smooth preparations for upcoming events.

FREELANCER

2022/2023

TWITCH - INDIVIDUALS

I have had the privilege of designing animations and 3D models for content creators, offering them visually captivating elements for their projects. Additionally, I have had the opportunity to design and teach students the art of building websites using pure CSS, JS and Bootstrap, enabling them to acquire valuable skills in web development.
