PROFILE

Tarek is an aspiring student at ISTIC, known for his remarkable abilities in both team collaboration and leadership. With an extensive range of skills in graphic design, Tarek excels in various genres including front-end design, Photoshop photography, poster design, video editing, 3D asset design, vector art, and 3D/2D animation. His proficiency in these areas enables him to create stunning and professional visual content across a wide spectrum of mediums. Tarek's diverse skill set and talent make him a valuable asset in any creative project or team.

EXPERIENCE

Istic Google Club

DIGITAL MARKETING LEADER

Tarek's exceptional leadership skills were evident as he took charge of organizing and leading various club events. With a keen eye for design and a passion for sharing his knowledge, he also took the initiative to design and conduct workshops for the members of his club. Through his guidance and expertise, Tarek successfully curated engaging and educational sessions that not only expanded the skills of his fellow club members but also fostered a sense of creativity and collaboration within the group. Tarek's dedication to his club and his ability to inspire and empower others through his design workshops made him an invaluable leader and mentor to his peers.

DIGITAL MARKETING DESIGNING EXPERT

Tarek played a pivotal role in helping his college clubs make a successful foray into the world of digital marketing. With his expertise and passion for design, Tarek took charge of crafting captivating visuals that elevated the clubs' online presence. He designed eye-catching posters, badges, and videos that effectively conveyed the clubs' messages and attracted attention from the target audience. Not content with just creating visuals, Tarek also took on the responsibility of leading workshops where he shared his knowledge of digital marketing strategies and tools with club members. His workshops were highly interactive and provided valuable insights and practical skills to empower his peers in the realm of digital marketing. Tarek's dedication extended beyond design and workshops as he actively participated in every event, demonstrating his commitment to the clubs' success. Through his multifaceted contributions, Tarek became a driving force behind the clubs' growth and their ability to engage with a wider audience in the digital landscape.

Online entrepreneurship

3D MODELER AND 2D/3D ANIMATOR

Tarek's exceptional talent and reputation in the field of design have caught the attention of prominent Twitch streamers, YouTubers, and game developers from diverse corners of the world. Recognized for his proficiency in creating 3D models, 2D artwork, and captivating 3D animations, Tarek has been exclusively contacted by content creators and game developers hailing from the USA, Korea, and Tunisia. They seek his expertise in crafting visually stunning and immersive experiences for their audiences. Tarek's unique ability to breathe life into digital worlds through his designs has made him a sought-after collaborator for loading screens, which serve as captivating introductions to these content creators' streams and videos. With each project, Tarek brings his artistic prowess and technical mastery to the table, delivering exceptional designs that leave a lasting impact on viewers and enhance the overall appeal of these content creators' digital platforms.
